SUMMARY

I am passionate about creating innovative, user-centric web applications with a focus on frontend development. I specialize in React.js and Next.js, with a solid foundation in HTML, CSS, and JavaScript. My goal is to deliver clean code and clean UI, incorporating GSAP for smooth animations to enhance user experience.

KEY SKILLS

- JavaScript
- TypeScript
- ReactJs
- NextJs
- GSAP
- TailwindCSS
- Bootstrap
- NodeJs
- ExpressJs
- MongoDB
- Mongoose
- GitHub

WORK EXPERIENCE

TechWhiz - Tech Tips & Tricks Hub   **September, 2024 - October, 2024**

- Built user authentication and post management system with secure login, reactions, and comments.
- Integrated search, filtering, and payment processing with transaction history tracking.
- Developed responsive admin dashboard for managing users, posts, and payments.

Live   **Frontend**   **Backend**

Ride Ease   **August, 2024 - September, 2024**

- Developed a car rental platform enhancing user registration, search, and booking efficiency
- Created a dashboard for real-time metrics, booking oversight, and car listing management.
- Integrated secure payment processing and ensured responsive design across all devices.

Live   **FrontEnd**   **BackEnd**

Camp Craze   **July, 2024 - July, 2024**

- Utilized Redux Toolkit for state management, ensuring scalable and maintainable application architecture.
- Leveraged RTK Query for efficient and simplified data fetching, caching, and synchronization with the backend.
- Admins can create, update, and delete products efficiently using Redux Toolkit.

Live   **FrontEnd**   **BackEnd**
